Robotic Arm Access Agreement

I hereby acknowledge that I have gone through the introduction to operating the robotic arm and agree to follow all procedures laid out in this document. I also acknowledge to always being cautious and am aware of the inherent dangers of operating it especially in new and untested ways that cannot be covered in such a document. I will only use it for University related research and will follow the buddy shop rule of never working alone when operating the arm, as well as all other shop rules as posted. Also I agree that access is non transferable and that I follow all safety rules and also will enforce all safety rules with collaborators/safety buddies and make sure all equipment is turned off and doors are locked with no one left behind when leaving.
